
Course Enrolment — Frequently Asked Questions

Compiled from the queries submitted through the Course Enrolment Query Form

This FAQ answers the most common questions about the new bid-point course-enrolment system. Part 1 covers general questions; Part 2 lists course- or situation-specific questions, each rephrased in a general form so that others in a similar position can find the relevant answer. Dates for the mock round and live bidding, along with the enrolment portal details, will follow in a separate communication.

Part 1 — Frequently Asked Questions

Bid points — how they are allocated

Q. What do “remaining credits” mean — my total credits left, or by category?

A. By category. Bid points are allocated separately for each elective category — Major Elective (ME), University-Wide Elective (UWE) and Common Core (CCC) — based on the credits you still need in that category (from your degree audit), not one combined total. To calculate the remaining credits, first the floater credits are equally split between UWE and CCC (floater credits = 6 credits for Third and Fourth year & 8 credits for Second year), then the category wise credits earned are deducted to find the remaining credits. For Example, for a third-year student completing 9 CCC credits, the number of pending CCC credits will be $18 + (6/2) - 9 = 12$ Credits

Q. How many bid points will I get?

A. Points = your remaining credits in a category $\times$ a per-credit rate, plus a one-time transition constant for current 3rd- and 4th-year students. Typical first-cycle averages are about **90 / 70 / 40** (ME / UWE / CCC) for 2nd years, **145 / 92 / 72** for 3rd years, and **297 / 125 / 238.5** for 4th years. Your own figure depends on your remaining credits; the full method is in the Bid Point Allocation note. All bid points will be rounded to nearest integer.

Q. Is there a minimum bid? Can I bid zero? Is there a maximum?

A. There is **no minimum bid** — you may bid any whole number of points, including 0. There is no limit on the maximum bid point. You are free to bid your entire available pool of bid point for one course. A course that still has seats clears at 0, so you keep those points.

Q. Are bid points based on CGPA?

A. No. Points depend on remaining credits (and seniority for the transition batches), not on CGPA. However, bonus bid points may be awarded for filling the course feedback forms from Spring 2027 onwards.

Q. Do points carry forward, or are they renewed each semester?

A. Unused points carry forward to future bidding semesters. For 2nd years, points are released semester by semester on a schedule; for current 3rd/4th years, the transition allocation is fixed across their remaining semesters.

Q. (2nd year) I have completed several credits in a category — can my balance go negative?

A. No. Your pool is based on the credits you **still need** (each completed credit lowers the pool by 5 points), and it is floored at zero — it never goes negative.

Q. Won't I be left short if a popular course clears high?

A. You are charged the **clearing price** — the lowest winning bid — not the amount you bid, and everyone who wins a seat pays that same price; the surplus is refunded and unused points carry forward. Uncontested courses clear at 0.

Q. Why are Floater points split 50/50 between UWE and CCC? Can I put them all in UWE?

A. Under the current policy the Floater points are split equally between UWE and CCC. It is not possible to float bid points from CCC to UWE or vice-versa.

The bidding process

Q. I'm still confused about how bidding works overall.

A. In short: you receive a points budget per category; in each round you place bids on the courses you want and set your order of preference; seats go to the highest bidders; everyone who wins pays the clearing price (the lowest winning bid) and the rest is refunded. A **mock round** will let you practise the portal before live bidding.

Q. If I bid on several courses in a round, do they all draw from one balance?

A. Each category (ME / UWE / CCC) has its own balance. Points you place on a bid are held against that balance and released if the bid is unsuccessful back to the same category. You cannot commit more than you have; you are charged only for the courses you win. Refunds will be processed along with results.

Q. Can I see the price or other people's bids while a round is open?

A. Individual bids are private, but you can see the number of **seats, and the number of bidders**, and you can revise or withdraw your bid until the round closes.

Q. What happens if I don't bid on anything?

A. You will not be auto enrolled into electives; you would use the later waitlist and add/drop rounds. Core and other mandatory courses are pre-enrolled regardless of bidding.

Q. How long is each round, and when will I know the result?

A. Round durations and the full schedule will be announced in the schedule communication. The outcome of each round is known before the next round opens.

Tie-breakers

Q. How are ties broken? Is the random draw fair, or does it depend on my internet speed?

A. Ties are broken by a system-generated **random draw**. The draw does **not** depend on when or how fast you bid — you have the whole round to place and revise your bid, so speed and connection are not a factor (unlike the old first-come system). You will be assigned a unique random number for each course from each round. The random number will not change if you withdraw from the course and rebid for the same course.

Q. If I lose the draw, do I get any priority next round?

A. No Priority in the next round. You bid again in the waitlist / next round with your remaining points.

Rounds, waitlist and add/drop

Q. What are the rounds?

A. Broadly: Major-core swap I → Major Elective bidding → Major Elective Drop → CCC/UWE bidding → Major-core swap II → CCC/UWE bidding (second pass) → Major Elective waitlist → CCC/UWE waitlist → Add/Drop, plus a separate second-half CCC cycle later in the semester. Dates will be announced separately.

Q. How does the waitlist round work — by bid or first-come?

A. By bid. Waitlist order is set by your bid (plus the tie-break), not by who clicks first.

Q. Can I drop a course after attending a class, get my points back, and take another?

A. You can drop Major Elective Courses in the Major Elective Drop Round with full refund. Thereafter, you will get the next opportunity to drop courses in the **Add/Drop round**. No refund of the clearing price will be processed for dropping courses during the Add/Drop round. You will be free to add courses with vacant seats during the add/drop round as per the timelines announced in the academic calendar.

Q. Is the add/drop round for all course types?

A. Yes — CCC, UWE and Major Electives, subject to available seats and timetable clashes.

Swaps (major-core sections)

Q. How do swaps work, how many are allowed, and can I swap my whole lecture group (e.g. L1 → L2)?

A. Major-core section swaps happen in the swap rounds. You request a different group; the swap completes only if there is an open seat or a matching counterparty (someone swapping the other way). You are allowed only one swap per round.

Q. What if no one swaps with me and there is no open seat?

A. A swap needs either an open seat or a mutual counterparty; if neither exists it cannot complete.

Swayam / NPTEL courses

Q. Do Swayam/NPTEL courses go through bidding? Which round? How do I record one I have already taken?

A. As there are no seats constraints, no course bidding is required for SWAYAM/NPTEL courses. You will be able to enrol in SWAYAM / NPTEL courses during the add/drop round subject to semester wise credit limit.

Backend enrolment

Q. Backend enrolment is being discontinued — how are the cases that used to rely on it handled?

A. Regular backend enrolment is discontinued. It is retained only for exceptional cases — for example, automatic re-enrolment into failed core courses, Course Audits, and Master's/PhD enrolment with the necessary approvals.

Retakes and grade improvement

Q. I failed a core course that is being offered again — am I auto-enrolled, or do I register?

A. Failed **core (mandatory)** courses are re-enrolled, subject to you filling the google form floated by the Dean's Office. Such enrolments count toward your 25-credit cap. Repeating a **non-core** course requires bidding.

Q. How do I retake a course for grade improvement (core or elective)?

A. Requests for grade improvement (for both core and elective courses) are collected through a **separate Google Form during the Add/Drop period**, and are processed only if seats remain, credit limit permits, and there are no timetable clashes with your confirmed enrolments.

Q. Can I get an attendance waiver to retake a course that clashes, as before?

A. There is automatic attendance waiver for course retakes (with no F*/Ab grades) as well as for grade improvement. A **separate Google Form during the Add/Drop period** will be floated to register requests for grade improvement. For enrolment despite time-table clash, instructor approval is required.

Q. Do I get extra bid points for retaking a course?

A. No extra points are given for a retake; grade-improvement retakes are handled through the form above.

Timetable and clashes

Q. My timetable isn't updated, or has clashing core courses — what do I do?

A. Report the specific error or core-course clash to the Academic Office / your Program Office. The shared timetable is the basis for bidding, and genuine clashes are being reviewed.

Q. A professor might change a timing after the "final" timetable — how would that affect enrolment?

A. The shared timetable is treated as final for bidding; any change would be managed by the Academic Office, and the process for that will be confirmed. Generally, an instructor will not be permitted to alter the schedule of the course.

Graduation requirements and Semester 8

Q. Do we bid for mandatory graduation-requirement courses? That doesn't seem fair.

A. You do **not** bid for core / mandatory courses — they are pre-enrolled. Bidding applies only to your **elective choices** (which ME / UWE / CCC to take), where demand can exceed seats; the bid system allocates those fairly.

Q. Is there any guarantee I will get courses if I lose in every round?

A. The waitlist and add/drop rounds are designed to give everyone a fair opportunity, and core/mandatory courses are secured outside bidding. You are advised to make a stronger bid for courses you desire the most to improve your chances of enrolment.

Q. (4th year) There are no bid points in Semester 8 — how do I complete remaining UWE/CCC I couldn't finish by Semester 7?

A. As generally, most 4th years tend to complete a majority of their degree requirements by semester 7th, they are being granted the entire pool for Sem 7 and Sem 8 upfront. They can utilize the bid points as per their requirements. Unused bid points can be carried forward to Semester 8. No additional bid points will be granted in semester 8th. Irrespective of your pool in semester 8, you are free to enrol in courses with zero clearing price, vacant seats, as well as SWAYAM courses.

Prerequisites and eligibility

Q. A prerequisite is listed as "Course X or equivalent", or I did a higher/similar course — how is this handled without backend?

A. A clean prerequisite list will be uploaded on the Course Bidding platform. To be eligible to enrol in the course, a student must have met the prerequisite requirement. Where a prerequisite is blocking a course you need given you have did a higher / similar course, flag it to the Office of Dean Academics with the instructor approval for review.

Q. Where do I find the prerequisites, or the course list for a minor?

A. Refer to the UG Minor Handbook. List of prerequisites will be available on the course bidding platform.

Minors, specialisations and Floater

Q. How do I complete my minor if I have very few UWE points — for example, a 4th year who has met the UWE requirement but still needs a mandatory minor course?

A. Minor courses are bid for like other electives, and the transition constant gives 3rd/4th years a points **floor** even when remaining credits in a category are zero, so you are not left with nothing.

Choosing lecture / tutorial / practical batches

Q. When I bid for a course, can I choose the specific tutorial, practical or lecture batch (T1, T2, L1...)?

A. Yes, you can provide preference for specific batch within the course. Further, for example, you can swap L1-T1-P1 to L2-T2-P2; and not L1-T2-P1. That is, only entire batch can be swapped, specific course components cannot be swapped.

Cross-listed courses (ME for one programme, UWE for another)

Q. A course is a Major Elective for my batch but a UWE for others. ME bidding is before UWE — will all the seats be taken in the ME round? Are any reserved for UWE bidders?

A. This is a department's call and varies course wise. Wherever applicable, seats will be reserved for UWE in certain courses, while in others no seats will be reserved. Where such a course is essential for your minor, flag it to the Office of Dean of Academics

Q. A course that should be my Major Elective is showing as a UWE (lowering my points / blocking my minor) — how do I fix it?

A. Report the mis-categorisation to the Office of Dean of Academic immediately, so your points and eligibility are set correctly.

Webinars, help and course information

Q. Can the training recordings be released? The window was short.

A. The training recordings have been shared.

Q. When is the mock bidding round, and how do I get help during live bidding?

A. A mock round will be held before live bidding; its date and the helpdesk contact details will be shared in the schedule communication.

Q. Will course descriptions be available before I bid?

A. Yes, a link to the course description form will be made available to students.

Half-semester CCC and credit extensions

Q. Do second-half CCC courses use a new pool of points, or the same CCC points?

A. Second-half CCC uses the same CCC balance. Second-half CCC dates will be announced separately.

Q. I have an approved credit extension (more than 25 credits) — how is that handled in the portal?

A. *How approved credit extensions and enrolment beyond 25 credits are handled in the new portal will be confirmed.*

Part 2 — Course- or Situation-Specific Questions

These questions were specific to a student's own course or situation. Each is rephrased in a general form so that anyone in a similar position can find the relevant answer; the last column shows where that answer sits (a Part 1 section, or the office to approach).

Specific question (as raised)	General version	Where to get the answer
A course in my curriculum plan (e.g. DSA) isn't in the final timetable — do I have it this semester?	A course from my degree plan is missing from the final timetable — am I still taking it / enrolled?	Contact your UG Advisor
I failed a specific major core (e.g. CED1001) being re-offered — auto-enrolled? priority? clash handling?	I failed a major core course now offered again — will I be auto-enrolled, do I get priority, and how are clashes resolved?	Part 1: Retakes & grade improvement
My department's elective is showing as a UWE (e.g. for BMS / CSD students), lowering my points / blocking my minor.	A course is mis-categorised (ME vs UWE) for my programme — how do I get it corrected?	Contact office of dean of academics
A course required for my minor (e.g. INT101 for IR) clashes with one of my courses — can it be rescheduled?	A course required for my minor clashes with a core/other course — can it be rescheduled, or how do I enrol?	Clashing courses cannot be enrolled.
I got an F in a specific UWE (e.g. Pricing Strategy) — can I retake or replace it, and how?	I received an F in a UWE — what is the retake / grade-replacement procedure?	Part 1: Retakes & grade improvement
Can I choose a specific tutorial batch (T1/T2) when bidding for my course (e.g. ECO102, COM191)?	When bidding, can I choose which tutorial / practical / lecture batch I join?	Part 1: Choosing batches
I have a backlog whose retake overlaps the elective I want / a course isn't offered to my major (e.g. Blockchain for ECE).	My backlog retake clashes with an elective I want, or a course isn't open to my major — what are my options?	If it's an elective course, one option for you is course replacement
I'm a 4th year with UWE/CCC/Floater credits left but no bid points in Sem 8 (e.g. 8 UWE + 5 Floater; or 7 credits for a 4-year transcript).	4th year — how do I complete remaining UWE/CCC when Semester 8 has no bid points?	Part 1: Graduation requirements & Sem 8
My whole batch's core course clashes with all available CCCs / most electives (e.g. CSE 2028 AI course).	My batch's core course clashes with all offered CCCs or most electives — will more options or seats be provided?	Feedback received on Timetable is being reviewed
(2nd year) I've completed many credits in a category (e.g. 4.5–10 CCC) — does my balance go negative?	2nd year — if I have completed a lot in a category, is my balance capped at zero?	Part 1: Bid points (negative balance)
I want to retake a specific core course for grade improvement (e.g. Discrete Maths /	Retaking a core course for grade improvement — what is the process, and can I get an attendance waiver for a clash?	Part 1: Retakes & grade improvement

Specific question (as raised)	General version	Where to get the answer
a 1st-year core) — bid as UWE? backend? attendance waiver?		
I want all my Floater credits in UWE (for a minor), but the points are split 50/50.	Can I use all my Floater credits / points for UWE (or CCC) instead of a 50/50 split?	Part 1: Minors & Floater
A course I've done isn't recognised as a prerequisite for one I want (e.g. CSD210 for ECO203).	A course I completed isn't being accepted as a prerequisite — how is equivalence handled?	Contact the Department
My minor/programme uses a separate batch with backend auto-enrolment (e.g. Design minor) — does that continue?	My minor or programme is enrolled as a separate batch via backend — does that continue under bidding?	No
I have backlog core courses (e.g. FAC102, CSD101) — auto-added? can I pick sections? will they clash with electives I bid for?	I have backlog core courses — are they auto-added, can I choose sections, and how do I avoid clashes with electives?	Part 1: Retakes / Backend
I have failed / 'F*' courses from year 1 (e.g. ECE1001, a CCC) — will they be re-added, and how do I register for improvement?	I have failed or 'F*' courses — will they be re-added automatically, and how do I register for improvement?	Part 1: Retakes & grade improvement
I have an approved credit extension — how do I enrol in more than 25 credits?	I have an approved credit extension — how is enrolment beyond 25 credits handled?	Part 1: Credit extensions
I failed a specific core (e.g. ECO302/ECO494 thesis) — extra points? priority? counted as ME or core? still auto-enrolled?	A previously auto-enrolled / failed core is now offered or optional — how do I enrol, and how is it categorised for me?	Part 1: Retakes / Graduation reqs
I'm a lateral-admission / mid-programme-switch student — backend core, section swaps, credit-transfer drops, category shortfalls?	As a lateral-admission or programme-switch student, how are my core enrolment, swaps, credit-transfer drops and shortfalls handled?	This is still being worked out.
My advisement shows 0 remaining UWE credits, but I still need a mandatory course there for my minor — do I lose points?	My audit shows 0 remaining credits in a category, but I still need a course there for a minor — do I get points for it?	Part 1: Minors & Floater
Have under-set seat caps been corrected where the room/professor can take more (e.g. MAT102)?	Have seat caps been corrected for courses whose room and instructor can accommodate more students?	This can only be updated based on Instructor's / Departments request
For my batch, a core (e.g. FAC410) clashes with most UWEs needed for BMS/Maths minors — please review the clustering.	For my batch, a core course clashes with most UWEs needed for a minor — can the clustering be reviewed and accessible options confirmed?	Feedback received on Timetable is being reviewed.
Can course credits be added as a column in the timetable sheet?	Can course credit values be shown in the timetable?	Feedback (noted)
